

Huda Sarkawt

Senior Front-End Developer and Scrum Master

✉ huda.s.nasih@gmail.com ☎ [+9647507226434](tel:+9647507226434) 📍 Iraq/Erbil

Summary

Vue.js and TypeScript specialist focused on building scalable, component-driven frontend systems. Experienced in delivering end-to-end features—from analysis to deployment—and leading Agile teams. Strong at aligning technical solutions with business goals, with a focus on performance, clean architecture, and maintainability.

Experience

RIGT

Erbil/Iraq

Senior Front-end Developer and Scrum Master

2021-09-01 - present

Mar 2024 — *Senior Frontend Developer & Scrum Master*

In addition to frontend responsibilities, took on the Scrum Master role — guiding the team through Agile practices and ensuring effective collaboration across delivery cycles.

- Led daily stand-ups, removed blockers, and set timelines to ensure smooth and predictable delivery
- Participated in business meetings to gather requirements and translate them into actionable development tasks
- Took part in feature analysis — breaking down ideas into tasks, estimating effort, and aligning with business priorities
- Evaluated peers' work, offering guidance to maintain quality and consistency across the codebase
- Continued contributing technically across **NASS Pay by Link, Arbela, cardhouzz, Eventy, SIM Distribution**, and government systems

This role allowed growth as both a developer and a team leader — staying aligned with business needs while delivering clean, efficient, scalable solutions.

Sep 2023 *Senior Frontend Developer*

Responsibilities expanded significantly during a period of team shortage — successfully managing multiple workstreams while mentoring and onboarding new developers.

- Took ownership of key features in governmental systems including Social Security and Archive
- Reviewed pull requests and ensured adherence to code standards, performance, and security best practices
- Trained new developers, guided them through the codebase, and supported clean architecture adoption
- Contributed to the Base UI library by adding reusable components to improve team efficiency
- Participated in refactoring legacy code toward modern best practices
- Managed deployment processes — created and maintained release tags, coordinated releases with backend

Grew not only as a developer but as a mentor and team player, always ensuring quality and consistency across the codebase.

Sep 2021 *Frontend Developer*

Joined the team as a frontend developer, beginning by learning the structure and foundation of a large legacy codebase before taking on full feature delivery.

- Contributed to Arbela and cardhouzz by implementing new features and improving existing components
- Focused on code quality, security, and performance — consistently following clean code standards
- Delivered tasks under tight deadlines, showing adaptability and commitment to team goals

Experience

Fast Pay

Marketing Representative

Erbil/Iraq

2020-07-01 - 2020-10-10

- Conducted 200+ customer calls daily to collect feedback on products and services.
- Conducted targeted surveys to gauge customer satisfaction and gather feedback, while maintaining a professional approach and consistently meeting daily call targets under pressure.
